Educational Philosophy

Our program is designed to meet the developmental needs of young children 2-6 years of age. It provides experiences that enrich each child's cognitive, language, social, spiritual, physical and creative development. Our center has been designed in such a way that each child has an opportunity to create, explore, and learn problem solving and personal interaction skills—all within a caring Christian environment. Children develop a positive self-concept through a balance of self- and teacher-directed activities.

Opportunities for solitary play as well as group activities are provided. Staff serve as positive Christian role models and provide care that is supportive and responsive to each child's individual needs. In essence, we are committed to teaching and training the whole child. We respect parents as the primary and most important provider of care, and we seek only to supplement their efforts.

Jesus said, "Let the little children come to me, and do not hinder them, for the kingdom of heaven belongs to such as these."
Matthew 19:14
